Frontend Developer and Electromechanical Engineer with 4+ years of experience building and maintaining web solutions as a contractor for Oracle through Red Design Systems. Experienced in HTML, CSS, JavaScript, Eloqua, JIRA, and Litmus, with a strong background in responsive websites, HTML emails, landing pages, surveys, forms, and internal web tools. Currently expanding toward Full Stack development and AI Engineering through training in React, Node.js, TypeScript, testing, databases, and Python. Passionate about building accessible, scalable, and user-focused digital solutions, with a strong interest in integrating AI tooling into everyday development workflows.

PROFESSIONAL EXPERIENCE

Red Design Systems / Oracle

Specialized DC Analyst / Frontend Developer Contractor

Bogotá, Colombia

April 2022 – Present

- Deliver 20+ user stories per year across Oracle client projects, supporting the timely execution of digital marketing campaigns and web initiatives.
- Develop and maintain web solutions for Oracle projects, including emails, landing pages, surveys, forms, and internal tools such as email generators, using HTML, CSS, and Vanilla JavaScript.
- Build responsive digital assets focused on accessibility, semantic structure, and compatibility across devices, browsers, and email clients.
- Use Oracle Eloqua to create, update, and manage digital campaigns, while participating in the ongoing transition process toward Oracle Fusion.
- Collaborate with international Oracle teams based in India, taking part in technical conversations in English and managing requirements through JIRA.
- Perform email testing and validation with Litmus, ensuring proper rendering and functionality across multiple email clients.

ACRIP Nacional - Federación Colombiana de Gestión Humana

Project Assistant

Bogotá, Colombia

July 2019 – July 2021

- Managed client accounts at national level and supported the preparation of commercial reports using a CRM system.
- Improved internal data management by building an automated tracking system in Excel, streamlining records and reporting processes.

EDUCATION

FullStack Development Bootcamp - JSCAMP

In Progress | Instructed by Midudev (Miguel Ángel Durán)

Professional Diploma in Machine Learning & Data Science

Jan 2025 | Universidad Nacional de Colombia

General Programming Skills Training Program Misión TIC 2022

Jul - Dec 2021 | Universidad Nacional de Colombia

Bachelor's Degree in Electromechanical Engineering

Dec 2019 | Escuela Tecnológica Instituto Técnico Central

Honors: Participation in the IV International Scientific Summer Program for Outstanding Students · Jul 2018

ADDITIONAL SKILLS

- AI-Assisted Development: Claude · Codex · AI Agents · Prompt Engineering · AI-assisted coding workflows
- Native Spanish; English — Professional working proficiency
